## FRONT-END DEVELOPER | WEB DEVELOPER | FRONT-END ENGINEER

A web developer that can bridge the gap between technology and design. Strong in JavaScript, CSS, and HTML5, I am looking for a role that will help me expand my skill set in modern technologies and frameworks.

### SKILLS

**Languages:** HTML, (S)CSS, JavaScript, NodeJS, SQL, Git

**Frameworks/Libraries:** jQuery, React, Bootstrap, handelbars.js, Express, MySQL

**Applications:** VsCode, Figma, Photoshop, Illustrator, After Effects, Adobe Creative Suite, Jira

### WORK EXPERIENCE

**Cleverbridge** ■ Chicago, IL ■ 2021 – Present

#### FRONT END DEVELOPER

**Tech stack:** jQuery, webpack, SQL

- Updated CSS to use modern techniques such as flexbox and grid, allowing for future maintenance and scaling for a major security management software company
- Designed and developed flexible layouts and interactive elements to accommodate multiple languages and varying word lengths, optimizing user experience needs for global customers on a major antivirus software company's account
- DOM manipulation for user-friendly carts across multiple clients
- Reduced technical debt and removed XSS vulnerabilities with a major refactor of the base "Wait Don't Leave Leave" layer that is used across multiple clients
